Käpylä Bollard

The classic and timeless Käpylä luminaires are a great solution for lighting pathways and plantings in yards and gardens. The glass dome protects the bulb and steers the light both upwards and downwards through the body's steel rings. Install together with a concrete base and a support tube (4107058), or choose a ground support tube (4107104) that can be sunk directly into the ground. To create a harmonious look for your yard, complement the Käpylä bollards with Käpylä wall luminaires.

- Color:
450 mm: steel.
1100 mm: steel, white RAL9010 and black RAL9011.
- Screw connectors 3 x 2,5 mm², one cable entry, cannot be chained together.
- LED-lamp E27 max. 11W, not included.
- IP44.
- Ambient temperature range -20 ... 25 °C, depending on the bulb.
- Lamp recommendations: Airam Frost led -range.
