

Park Bollard

The clean-lined Park Bollard luminaires are designed for gardens and access routes. The steel rings inside the diffuser prevent glare and bring the modern design to life. You can create a harmonious entity by combining the bollard-mounted models with Park Wall luminaires. You can change the atmosphere and level of illumination through the choice of lamp. You can install the luminaires using a concrete base and ground mounting tube (4107058) or alternatively you can use a ground mounting tube (4107104) that can be installed without a separate base.

- Body made of steel, dome made of polycarbonate.
- Brushed steel and grey.
- Can be chained together. 3 x 2.5 mm² connectors.
- LED lamp max. 10,5 W A60 E27, not included.
