

Sport

Sports facilities luminaire Sport is a made of high-quality materials for high spaces. In the design of the luminaire, we have listened the wishes of our customers as much as possible. The traditional ball protection grid has been replaced with a clear polycarbonate reflector, which gives the light distribution very evenly over the illuminated area. Luminaires pull-out connection strip and integrated surface mounting brackets make installation very easy. The surface mounting brackets are slotted to fit the most common suspension rails. The high-quality reflector material and strong steel frame safely absorb impacts from all directions. Sport is ball protection tested as required by the VDE 0710-13 standard. The 100% Finnish Sport luminaires are designed and manufactured at Airam's factory in Lahti.

- Steel housing, polycarbonate reflector, 60 degree lenses as standard option.
- White, RAL 9016.
- Protection class I.
- Surface mounting to the ceiling.
- Linkable 5 x 2,5 mm².
- Installation height 4–10 m.
- Integrated LED 105–150 W: 18 000–24 000 lm.
- Colour temperature 4000 K. CRI > 80 / Ra > 80.
- MacAdam 3 SDCM.
- IP20.
- IK10.
- Ball Protection certificate VDE 0710-13.
- On/off and Dali-2, with direct pushbutton control 230 V.
- Ambient temperature range 0 ... 25 °C.
- Rated lifetime L80B10 100 000 h (Ta25°C).

- Customised luminous flux packages are available on a project-specific basis. Through-wiring, different lense options and RAL Classic colours for the housing are available to order.

The pull-out connection strip speeds up installation.

Integrated surface mounting brackets make installation very easy.
